The intention of GaiaInnovations is to shift focus from problems to solutions and from symptoms to causes.

«To change something, build a new model that makes the existing model obsolete.» - Buckminster Fuller

GaiaInnovations - *for a world in balance*

Norway, (February 11, 2021) – GaiaInnovations believe that people hunger after constructive solutions to the world's problems, after better ways of structuring society as well as something that gives our lives more meaning and happiness.

Almost every human problem is already solved somewhere in the world, but few knows about it. GaiaInnovations wants to counteract this with our two portals.

THE INNOVATION PORTAL

Extinction of life, pollution and break down of systems accelerate all over the world. On the other side, innovations accelerate also. We will present innovations and solutions in 12 sectors which represent all aspects of human life: *Environment, Media, Governance, Health, Economics, Relations, Justice, Infrastructure, Education, Science, Spirituality, Arts.*

THE INSPIRATION PORTAL

Most of us discovered long ago that we live in a dysfunctional world. For far too long, the media has focused on problems, crises and things that doesn't matter. There has been too little focus on what's positive, inspirational and of significance. We want to present *Positive News*, a *New Worldview for the Future* and things that *uplift The Human Spirit*.

WE ARE GIVING AWAY OUR TWO BOOKS FOR FREE

Why? Because there are now millions of people who are struggling financially even in industrialized countries. And because we support a society that is more caring and less profit-based. GaiaInnovations rely more on donations. These are some of the reasons.
